

LEXICON PCM90/PCM91

“LEXICON CLASSIC REVERB HERITAGE” LIBRARY 2017©

ITALO DE ANGELIS

FX SoundWorX

THIS COLLECTION OF 45 PRESETS IS A JOURNEY THRU THE REVERBS OF SEVERAL GREAT LEXICON PROCESSORS. YOU WILL FIND SOUNDS FROM THE 224XL, THE 480, THE 300, THE LXPI AND THE PCM80. FROM VINTAGE TO MODERN, MOST OF THE LEXICON REVERB HERITAGE IS COVERED HERE. THE PCM90/91 IS THE ONLY LEXICON REVERBERATOR HOSTING MOST OF THE ALGORITHMS YOU CAN USE TO RECREATE THOSE CLASSIC SOUNDS.

ALL REVERBS IN THIS COLLECTION ARE BASED ON “RANDOM HALL”, “CONCERT HALL”, “RICH PLATE”, “CHAMBER” ALGORITHMS AVAILABLE IN THE PCM90/91. PCM90 OWNERS DON'T NEED THE “DUAL REVERBS” CARD TO RUN THESE PRESETS.

THE HALLS TAKE YOU THRU THE RANDOMIZED DELAYS TO THE CHORUS/SPIN TO THE NON MODULATED DELAYS IN THE REVERB NETWORK. DIFFERENT LEXICON TAKES OF THIS KIND OF POPULAR REVERB.

PLATES FOLLOW A SIMILAR PATTERN. COLORS CAN BE VERY DIFFERENT AND TONAL RESPONSE IS ANOTHER DETAIL MAKING THE DIFFERENCE IN THE ORIGINAL MACHINES.

ENJOY THIS SPECTACULAR SET OF REVERBS CLASSIC SOUNDS!

A request from the author...

Please do not distribute these presets you have purchased! Show respect for years of professional work and experience in the field. Let me support my family and keep these libraries' prices reasonable for everybody.

Show respect for the money you've earned and invested in these soundworks.

Thank you for your purchase and understanding.

If you have enjoyed these soundworks, please contact me and let me know your opinions and suggestions. They are very welcome. Hopefully the Pcm90/91 is your sonic friend now and you can start tweaking sounds using these presets as starting steps.
Good luck in your music life!
